PRODUCT!**

CONCRETE MIXERS DESIGNED FOR DURABILITY AND SAFETY

Electric
110V or 220V

Battery
82V

Petrol
Honda GX160

TECHNICAL SPECS

MODEL	MIX150-1	MIX150-2	MIX150-3	MIX150-4
Power Source	ELECTRIC 110V	ELECTRIC 220V	BATTERY 82V	PETROL Honda GX160
Power Output	0,75 hp	0,75 hp	1,5kW	5,5 hp
Mixing Production	1,00 m ³ /hour			
Mixing Capacity	90 L			
Drum Volume	130 L			
Drum Speed	30 RPM			
Drum Mouth Diametre	420 mm			
Mixer Weight	72 kg			
Stand Weight	9 kg			
Dimensions - no stand	1300 x 600 x 940 mm (L x W x H)			
Dimensions - with stand	1400 x 1050 x 1425 mm (L x W x H)			
Box Dimensions - assembled	1030 x 585 x 755 mm			
Box Dimensions - disassembled	1300 x 600 x 940 mm			

REINFORCED STRUCTURE, DRUM & OPENING

- The mixing blades are 3mm thick with a curved edge to avoid concrete getting stuck at the bottom of the drum.
- The blades are welded to the drum at 4 points for strength & durability.

STURDY FRAME

- Built with 3.6mm diameter tube, offering extra support and durability.
- The legs have a flattened tip to prevent sinking and slipping.

DESIGNED FOR OPERATOR SAFETY

- Engine exhaust vents to the side for better ventilation and to prevent burns.
- Emergency stop button is located on the side of the engine within sight and reach of the operator.
